## **Art at Work**

Our corporate art program places paintings, photographs, collages and mixed-media artworks into downtown businesses, activating environments, injecting creativity into the workplace, and benefiting clients, customers, employees, and artists alike. These venues are generally private offices closed to the public. Artists in our corporate art program receive loan fees for artwork exhibited. Fees are determined according to client contract and artwork size.

Corporate art venues usually require two-dimensional works appropriate for professional settings, although there is an occasional need for large free-standing sculptures. Wall-hanging artworks exhibited in these spaces are installed using a secured Arakawa hanging system and D-rings.
